New York, Sept. 27.—Spenglative opsrators for the decline again assumed control of today's stock market, forence another sharp break in prices which carried a number of stocks down it to seem to be seen to be seed and in many cases to the lowest figures of the month. Virtually no fresh haping power was in evidence and the only forstance was scale buying, which was casily overcores.

Passing of the Pittaburgh coal dividend calling attention to the serious effect of the coal strike which the market har largely ignored before; increasing tension over the situation in the Near Elast, heaviness of liberty bonds and reports that bankers were not disand reports that bankers were not disand as high as \$3.00,000 when the current reaction began, all coal/buted to the downward trend.

Pittaburgh Coal broke 10 points upon receipt of information that the directors had passed the regular quarterry dividend, which obviously was unexpocedd in the financial district. The stock can be seen on a 5 per cent basis since 1918.

Broadening European demand for wheat from the United States, so some traders said, could be seen in the purchase here today of some hard winter wheat for shipment from the Gulf of Mexico. Besidos, about 199,000 bunhais were bought here for all rall dispatch to Atlantic ports. It was unjed also that congestion at 'ake ports would make Canadian wheat more and more cifficult to obtain in the near future. fect the question of Greek evacuation of Eastern Thruce required by the allies and insisted upon by Kemal Pasha as a preliminary to any peace conference. From the confused and conflicting accounts reaching here from Athens, this is a matter of extreme uncer-kinty.

The revolution seems to have taken two different lines, one, demanding the defense of Thruce, the other asking for the formation of a pro-entents government. The countries of the second consult with the leaders of the coup. Until more defailte news is received and a new Greek government in the coup. Chleago, Sept. 27.—Disturbed conditions in the Near East had a buillish effect on the wheat market today, and so too, did orders for all rail shipments of gram from Chicago to the seabcard. Wheat prices closed unsettled, varrying from 1-4c net decline to 3 1-5c advanct, with December 1.05 to 1.05 1-8 and May 1.08 1-4 to 1.03 3-5. Corn finished 1-cc to 1 1-3 up and cats up 1-4 © 3-5 to 7-8. In provisions, the outcome ranged from 5c decline to a rise of 49c.

Except for a brief dip in prices at the start, wheat showed an upward tendenty of throughout almost the entire day. The initial weakness appeared to be due to the fact that Liverpool quotations failed to reflect any uneasiness over developments at the Dardanelles and in Greece. Persistent buying set in, however, on the part of some of the larger commission houses here, and a good deal of notice was taken of strength of prices.
